## Do It Yourself Flowers

Do It Yourself Flowers is for people who are wanting to arrange their own flowers. Buying in bulk flowers by the bucket from us can be a budget friendly option for someone who has the time and talent to design their own creations. Before you decide, we encourage you to consider these questions:

Do you have enough time to arrange? Do you have enough people to help you? Do you have a workspace to do the designs? Do you have the tools and supplies you need? Do you have the ability to transport and store your flowers? If you answered yes to the above, then DIY buckets can be a great option for you!

Each bucket contains a seasonal mix of fresh cut bouquet ingredients.
